LinkedIn — GitHub — LeetCode

PROFESSIONAL SUMMARY

Computer Science undergraduate skilled in Java, DSA, backend development, DBMS, and REST APIs. Solved 750+ DSA problems with 1850+ LeetCode rating. Built scalable backend systems and full-stack applications using Java, Spring Boot, Node.js, Flask, and MySQL.

EDUCATION

Galgotias University, Greater Noida	2023 – 2027
B.Tech in Computer Science Engineering	CGPA: 8.3

K.S. College, Darbhanga	2021 – 2022
Intermediate (BSEB)	Percentage: 68.2%

TECHNICAL SKILLS

Programming: Java, Python, C

Backend: REST APIs, Node.js, Flask, Spring Boot, REST APIs

Database: MySQL, SQL (Joins, Indexing, Optimization, Design)

Core: DSA, OOPS, DBMS, Operating Systems, System Design Basics

Tools: Git, GitHub, VS Code

Technologies: HTTP, JSON, API Design, Debugging

Other: SDLC, Agile Basics, Code Testing, Deployment Concepts

PROJECT EXPERIENCE

AI Code Reviewer Platform [Live] [GitHub]	<i>React, TypeScript, Node.js, OpenAI API</i>
--	---

- Developed an AI-powered code analysis platform that detects security vulnerabilities, code smells, and performance issues in real time.
- Integrated OpenAI API to provide intelligent code reviews, optimization suggestions, and debugging assistance.
- Built an interactive dashboard with Monaco Editor, charts, complexity analysis, and technical debt estimation.
- Implemented responsive modern UI with React, TypeScript, and reusable frontend components.
- Designed scalable architecture with API integration, authentication flow, and deployment-ready configuration.
- Developed backend APIs for AI-powered code analysis and response handling.
- Deployed the application on Vercel and optimized frontend build performance for production usage.

Online Railway Reservation Portal — GitHub	<i>Java, JDBC, Servlet, Oracle SQL</i>
---	--

- Developed a full-stack railway reservation system for online ticket booking and train management.
- Implemented user authentication, train search, seat availability, fare enquiry, and ticket booking features.
- Designed admin functionalities to add, update, and manage train schedules efficiently.
- Integrated Oracle SQL database using JDBC for secure data handling and booking management.
- Implemented role-based authentication and optimized SQL queries for efficient booking operations.
- Built responsive frontend pages using HTML, CSS, and Bootstrap for better user experience.

ACHIEVEMENTS

- Achieved 1850+ rating on LeetCode demonstrating strong problem-solving and coding skills.
- Solved 750+ DSA problems across platforms with consistent performance.
- Strong analytical thinking with ability to design and optimize efficient solutions.

ADDITIONAL INFORMATION

- Understanding of software development lifecycle (SDLC) and Agile methodologies.
- Familiar with debugging, testing, and maintaining reliable software systems.
- Basic knowledge of deployment, monitoring, and live system operations.

SOFT SKILLS

Problem Solving | *Analytical Thinking* | *Teamwork* | *Communication* | *Adaptability*
